WORK EXPERIENCE

February 2022 – Present

BACK-END DEVELOPER
Freelancehunt.com (Freelancer)

I have been working as a **freelance developer**, taking on projects from various platforms, primarily through Freelancehunt. My work encompasses a wide range of services, including the creation of **websites**, **mobile applications**, and other software solutions.

Latest projects:
- Board Games Platform
- Languages learning application
- **AstroScope** - astrology app
- **FlawFood** - proper nutrition

My technology stack:
» Python, FastAPI, Django, Tornado, SQLAlchemy, Celery, Kafka
» Linux, Docker, PostgreSQL, Traefik, Nginx

July 2024 – Oct. 2024

BACK-END DEVELOPER
Twoj Lekarz (Remote)

Developed a comprehensive **CRM system** for a network of clinics **Twoj Lekarz** in Poland, leveraging **FastAPI** to implement **RESTful APIs**.

Relevant Experience:

- Employee Management
- Financial Reporting
- Roles and Permissions
- Inventory Management
- Task Management

My technology stack:

» Python, FastAPI, SQLAlchemy, Celery
» Linux, Docker, Traefik

BACK-END DEVELOPER
Mobile Advocate (Remote)

Worked on creating a **platform for lawyers** that allowed users to **order legal services** and learn through **online courses** and **seminars**.

Relevant Experience:

- Online Seminars and Live Streaming implemented **Nginx RTMP**
- Automated Certificate Generation
- **Real-Time** Group Chat for Lawyers
- Scheduled Notifications with **Celery**

My technology stack:

» Python, FastAPI, PostgreSQL, Celery, WebSocket
» Kafka, Nginx RTMP
» Linux, Docker, Nginx

FULL-STACK DEVELOPER
Welligan (Remote)

I have been involved in developing a variety of websites, acting as a **mid-level specialist** and handling projects of medium complexity. For development I used technologies such as **PHP, Laravel**.

My experience includes:

- Online Shops
- Course Platforms
- Landing Pages
- Food Ordering Systems

My technology stack:

» PHP, Artisan, Laravel, MySQL
» HTML5, CSS3, JavaScript, JQuery

FRONT-END DEVELOPER
Weblancer.com (Freelancer)

For two years, I have been actively engaged in frontend development, specializing in creating interfaces for web applications.

My technology stack:

» HTML5, CSS3, JavaScript, JQuery
